122DICATED THALATION

MEDICATED INHALATION! DR. J. N. GREEN

brought into practice in the Brompton Hospital of London where it was practiced by as celebrated Physicians as This system is founded on the common sense principle of treating the disease and not its effects. The medicine, in the form of vapor, is applied directly to the seat of the disease, leaving the stomach free to aid in restoring health by furnishing to it healthy life giving food. The common, but absurd practice of treating diseases of the Langes through the medium of the stomach, demonstrates its injudiciousness as well as a universal failure can. We carnestly appeal to those afflicted with lung diseases to embrace the advantages of inhalation, and no longer drug the unoffending stomach.

Those living at a distance, by writing to us their symptoms, age, sex, hereditary predispositions, &c., can have an inhaler and medicine sent to any point they may order.

Foote pasented a petition from Capt. Graham, of Brooklyn, setting forth his services and sufferings in behalf of his country and complaining of the action of the Navat Board. Foote said it was not his purpose to pass strictures upon it, till less to impugn its motives, but it was not to be disguised, or denied, nor not it escaped public observation, in some instances at least, that the Board had sadly missinged greening mistakes had been made and stances at least, that the Board had sadly mis-judged; grevous mistakes had been made, and gross wrongs inflicted on meritorious officers. In what manner or what measure of relief Con-gress should extend to the aggrieved, he did not consider in his province to indicate, but re-garded it as a proper subject for the considera-tion of the Committee on Naval Affairs, and the matter was so referred.

The Senate adjourned.

Banks rose, amid cries of "fair play," "hear him," &c., and remarked that he was not accountable for what the New York press said of him, never having solicited their support. He relied on himself alone, and begged Dunn not to hold him responsible for complaints or censure in the New York Times or Tribune.

Dunn distinctly stated that he did not do so, but was opposed to him (Banks) on other grounds relating to his course, while the Nebraska bill was pending, and said he woulds arrender to the opposition the moment all the amit. Nebraska ites came together.

Banks resumed, saying he was independent of the New York press in all respects, and farther in his reply, insisted that he never yielded a particle on the Nebraska bill, meeting his constituents face to face. They gave him at the last election, 7,000 majority, which was the largest known in the political history of Massachusetts. (Applause.) He had acted as he thought right regarding the Nebraska bill, and they sustained him.

Much merriment ensued.

PUTNAM's MONTHLY.—Two numbers of this leading American Megazine have reached us at the same time, and brought apon as an embarras de vichesses. The articles number some eighteen in each, and there is not one that we should be inclined to pass over. Indeed, "Putnam" has a peculiar attraction for us, and we see in it a reflection of the mind, manniers, and intelligence of our trans-Atlantic consins. It carries us into a new country, and makes us acquimined with all its charact ristics in an easy, unaffected manner. In the "Balloon Travels" you have a bird's eye view of the most interesting portions of Burope, as you soar into the upper air at the side of the famous Mr. Robert Merry. He is sind enough to tell you all about the eurlous things you are looking upon, and by the time you have finished your aerial journey you will find that you know much more than when you started. Mr. Gilbert Go-head is another guess sort of a person. He travels over the best part of the world by land and sea, and has no taste for riding in balloons. When he comes home he has a plenty of st ries to relate about the wonders he has seen abroad. NEW PRINCIPLE! NEW REMEDY!! NEW PRINCIPLE! NEW REMEUY!

LACTS are stubborn things," but those who will not believe until they see for themselves, can have ample and tangible proof that the old system of dosing Agus Seyanzas with mixtures of Arsenic, Quinine, Mercury and Strychine, must soon be exploded and abundoned, because, "the remedy is worse than the disease," and because you cannot take poison without being poisoned. You may not feel the ill effects at once, but you will be more fortunate than some others, if you make the discovery before your constitution is broken.—

Be advised, then, in season, and test for your own satisfaction the pacts which prove that.

Ague Sufferers can be Cured without Poison!

No matter how long you have suffered, nor how obstinate your disease. The discovery of knoor's Fever and Acre Brar, or Antidote to Malaria, is a pact which will abundantly prove the truth of these assertions. It is nothing less than "NATURE'S INFALLIBLE ANTIDOTE," possessing the sure and active principle of resistance to any attacks from Malaria, which is known to be the cause of Exercand Arms.

PACTS:
It is free from all poisonous drugs, pleasant to the taste,
may be taken at any and all times, and though the small
est quantity possesses the power to stop the worst Chille
and Fever, the ingredients are so harmless that no possible injury can ome from its constant use, in proof of
which, the following certificate is attached to each bot

"I have made a chemical examination of "RHODES
FEVER AND AGUE CURE," or "ANTIDOTE TO
MALARIA," and have tested it for Arsenic, Morcary
Quinine, and Strychnine, but have not found a particle o
either in it, nor have I found any substance in its com-

The claims of such a medicine are safely based upon its intrinsic merits. It has no similarity whatever to any of the pills or mixtures which abound in every section and contain more or less of the poisons which destroy the vitality of the system, and have caused irreparable injury to thousands of credulous and ignorant sufferers.

RHODES' FEVER AND AGUE CURE never fails. strange as it may seem, and a trial only is necessary establish every word here stated as Facra!!! JAMES A. RHODES, JAMES A. RHODES,
